**18661. Misbranding of Jones' liniment. U. S. v. 101 Bottles, Small Size, et al., of Jones' Liniment. Default decrees of condemnation and destruction.** (F. & D. Nos. 26067, 26274. I. S. Nos. 28260, 28261, 28306, 28307. S. Nos. 4295, 4579.)

Examination of samples of the drug product Jones' liniment having shown that the bottle and carton labels and the accompanying circular bore statements representing that the article possessed curative and therapeutic properties which it did not possess, the Secretary of Agriculture reported to the United States attorney for the Western District of Pennsylvania the interstate shipments herein described, involving quantities of the product located at Pittsburgh, Pa.

On March 21 and April 23, 1931, the United States attorney filed in the District Court of the United States for the district aforesaid libels praying seizure and condemnation of 179 bottles, small size, and 82 bottles, large size, of Jones' liniment, remaining in the original unbroken packages at Pittsburgh, Pa., alleging that the article had been shipped in part by the M. Spiegel Medicine Co., Albany, N. Y., on or about March 28 and November 21, 1930, and in part by M. Spiegel & Sons (Inc.), Albany, N. Y., on or about March 28, 1931, and had been transported from the State of New York into the State of Pennsylvania, and charging misbranding in violation of the food and drugs act as amended.

Analysis of a sample of the article by this department showed that it consisted essentially of petroleum distillate such as gasoline, methyl salicylate, pine-tar oil, camphor oil, and capsicum oleoresin.

Misbranding was alleged in the libel filed with respect to a portion of the product for the reason that the following statements appearing in the labeling, regarding the curative and therapeutic effects of the article, were false and fraudulent, since it contained no ingredient or combination of ingredients capable of producing the effects claimed: (Large carton) "For Rheumatic Pains, Neuralgia, Sore Throat and Quinsy, Headache (Nervous) \* \* \* Backache \* \* \* Lameness, Chilblains \* \* \* It is good for Rheumatism, Lumbago,

The libel filed with respect to the remainder of the product quoted the curative and therapeutic claims appearing on the large carton and bottle labels, as above quoted, and charged that the article was misbranded in violation of section 8 of the act, as amended, paragraph three, the section and paragraph of the act on which the above misbranding charge is based.

On June 9 and June 23, 1931, no claimant having appeared for the property, judgments of condemnation were entered and it was ordered by the court that the product be destroyed by the United States marshal.

**18662. Adulteration of fluid extract of ergot. U. S. v. 1 Gallon of Fluid Extract of Ergot. Default decree of condemnation, forfeiture, and destruction. (F. & D. No. 26252. I. S. No. 24824. S. No. 4588.)**

Samples of fluid extract of ergot having been found to be practically inert with regard to ergot potency, the Secretary of Agriculture reported the matter to the United States attorney for the Eastern District of Missouri.

On April 18, 1931, the United States attorney filed in the District Court of the United States for the district aforesaid a libel praying seizure and condemnation of 1 gallon of the said fluid extract of ergot, remaining in the original package at St. Louis, Mo., alleging that the article had been shipped by Allaire Woodward & Co., from Peoria, Ill., on or about February 27, 1931, and had been transported from the State of Illinois into the State of Missouri, and charging adulteration in violation of the food and drugs act. The article at the time of shipment was labeled in part: "Fluid Extract Ergot."

It was alleged in the libel that the article was adulterated in that it was sold under a name recognized in the United States Pharmacopoeia, and differed
